EXPLANATION OF PRICES, ETC.

TERMS: Cash on orders for less than \$10.00. On orders for \$10.00 or more a deposit of 10 per cent is required with order, balance before shipment.

TRANSPORTATION CHARGES are payable by customer except where quoted prepaid by mail.

QUANTITY RATES: Apply on trees or plants of one class or kind. For instance, 25 apple or crabapple of one or more varieties entitles you to the 25 rate. But 5 apple, 5 peach, 5 plum, 5 pear and 5 cherry would take the 5 rate. Five shrubs of several varieties take the 5 rate.

INSPECTION: Every package bears the certificate of inspection of the State of Missouri. We welcome rigid official inspection such as is given in some states upon arrival.

GUARANTEE: We guarantee your satisfaction upon arrival of your order. If you should receive any unsatisfactory stock, heel it in subject to our disposal. All claims should be made immediately upon receipt of goods.

TRUE-TO-NAME WARRANTY: The best guarantee of trueness-to-name is the precautions and care we take in handling and labeling our stock. If, however, any tree or plant should prove untrue-to-name, it is understood and agreed that the Neosho Nurseries shall be liable for the sum paid for the stock which may be proven untrue and shall not be liable for any greater amount.

NOVELTY APPLE TREE FIVE VARIETIES ON ONE TREE

We have a limited number of apple trees with from 4 to 5 different varieties budded on as many different branches.

These varieties ripen from early summer to late fall—Duchess, Wealthy, Grimes Golden, Jonathan and Delicious—all dependable, high grade apples.

These trees are 3 years old with trunks 1½, ¾ and 1 inch thick.

PRICES—F. O. B. Neosho, cash with order. Satisfaction guaranteed upon arrival. Too large for Parcel Post.

Neosho Landscape Service

The attractiveness, the comfort and the value of a home can be greatly increased by the proper use of plant materials.

You can secure such desirable results by sending us the information asked for below with your check for \$5.00. This sum will be applied on the purchase price of plant materials which you order from us. We will submit for your approval a plan and list of the plants required with an estimate of their cost.

- Give all dimensions of building and lot.
- Show location of buildings on lot.
- Give points of compass.
- Show location of all trees and shrubbery on place.
- Show location of all walks, drives, etc.
- Give all grades, show terraces, etc.
- Show any objectionable views to be screened.
- Attach kodak views, taken from north, south, east and west sides of lot, if possible.
- Show where windows in first floor are placed.
- Is the house one, two or three stories?
- Height of foundation and windows.
- Do you like a lot of shrubbery?
- Do you want any hedges?
- Where preferred?
- Do you want us to locate trees, drives and walks?
- Do you prefer any particular kind of trees?
- Do you want a rose bed?
- A formal flower garden?
- Fruit trees?
- Evergreens?
- A vegetable garden?
- Where preferred?
- What is the character of soil?
- State how much you are willing to spend, also if you wish to plant part this season and the balance next season.

IRIS—Prepaid Prices.

These exquisite flowers are easily grown. They pay big dividends in any garden. Be careful not to plant them too deep. The crown should be covered only 2 inches deep.

The figure following the name of the variety is the rating by the American Iris Society. Heights of the stalks are given in inches.

	Per 3	Per 12	Per 25
GERMANICA VARIETIES —Named in order of blooming.			
Black Prince (78) 24 in. Dark purplish blue; blooms nearly 30 days, beginning almost a month ahead of <i>Orientalis</i> .	\$0.50	\$1.75	\$3.00
Perfection (78) 30 in. Purple and lavender, very beautiful.			
San Souci (40) 24 in. Canary yellow and crimson brown.			
Celeste 30 in. Pale azure blue, large.			
Madame Chereau (74) 30 in. White frilled with clear blue.			

SIBERIAN

Orientalis—18 in. Intense blue. Narrow leaves.

	Varieties underlined can be planted in the fall.				

EVERGREENS—Prices F. O. B. Neosho.

The following prices are on good specimens, fresh dug with ball of earth wrapped in burlap, f. o. b. Neosho. There is no guarantee of growth since that depends upon proper care on the part of the customer.

Directions—Submerge the earth ball in water 30 minutes in a shady place out of the wind. Set the tree slightly deeper than it stood in the nursery. Leave the burlap around the earth ball, but cut the strings after placing the tree in position. Tramp good dirt firmly around the tree. When the space around the ball is nearly filled, pour in several pails of water. Then fill in with loose dirt. Don't put any fertilizer in the holes. Loose straw or well rotted leaves spread around the tree make a good fertilizer and help protect against winter injury. Evergreens should be well watered during the summer and also in late fall.

The American Arborvitae (*Thuja Occidentalis*) are the hardiest types from Kansas City north. The Chinese Arborvitae (*Biota Orientalis*) are more satisfactory for southern planting where they have to withstand the hot summer suns and protracted drought. Both types do well in the intermediate section, i. e., within 100 miles of Neosho.

AMERICAN ARBORVITAE	2-3 ft.	\$ 3.50
(<i>Thuja Occidentalis</i>).....	3-4 ft.	5.50
Deep green, grows bushy at bottom, tapering towards top.		
AMERICAN GLOBE ARBORVITAE	15-18 in. spread	3.00
(<i>Thuja Occidentalis Globosa</i>).....	18-24 in. spread	5.00
Deep green, natural globe shaped.	2-2½ ft. spread	8.00
AMERICAN PYRAMIDAL ARBORVITAE	2-2½ ft.	5.00
(<i>Thuja Occidentalis Pyramidalis</i>).....	2½-3 ft.	6.00
Needs full sun. Narrow pyramidal form.	3-3½ ft.	7.00
	3½-4 ft.	8.50
BAKER'S PYRAMIDAL ARBORVITAE	2-2½ ft.	4.00
(<i>Biota Orientalis Pyramidalis</i>).....	2½-3 ft.	5.00
Yellowish green. Natural pyramidal form.	3-4 ft.	6.50
	4-5 ft.	9.00
	5-6 ft.	14.00
BERCKMAN'S GOLDEN ARBORVITAE	2-2½ ft.	7.00
(<i>Biota Orientalis Aurea Nana</i>).....	2½-3 ft.	9.00
Rich golden. Compact globular form.	3-3½ ft.	12.00
BONITA ARBORVITAE, Locke's Dwarf Globe	{ 2½-3 ft. }	6.00
(<i>Bonite Arborvitae</i>).....	{ (2 ft. spread) }	
Rich green. Unrivalled in color and perfection of form.		
COMMON CHINESE ARBORVITAE	3-4 ft.	4.50
(<i>Biota Orientalis</i>).....	4-5 ft.	6.00
Dark green, varying in shape and color as they are grown from seed.	5-6 ft.	7.00
	6-7 ft.	8.00
	7-8 ft.	9.00
COMPACT CHINESE ARBORVITAE	2-2½ ft.	4.50
(<i>Biota Orientalis Compacta</i>).....	2½-3 ft.	5.50
Dark green. Compact. Dwarf type.	3-4 ft.	7.50
MAYHEW'S GOLDEN ARBORVITAE ...		
(<i>Biota Orientalis</i>).....	2-2½ ft.	4.00
Light green, tips golden in spring. Upright growing.	2½-3 ft.	5.00
	3-3½ ft.	6.00
ROSEDALE ARBORVITAE	18-24 in.	2.00
Bluish in winter. Feathery foliage. Compact.	2-2½ ft.	3.00
	2½-3 ft.	4.00
BLUE GREEN ARBORVITAE	18-24 in.	2.50
Similar to Rosedale, but darker and less compact.	2-2½ ft.	3.50
	2½-3 ft.	4.50
	3-3½ ft.	5.00
JUNIPERS		
Irish Juniper	3-3½ ft.	5.00
(<i>J. Communis Hibernica</i>).....	3½-4 ft.	6.00
Sage color or bluish green. Upright conical form.	4-4½ ft.	8.00
Pfitzer's Juniper	18-24 in. spread	5.00
(<i>J. Chinensis Pfitzeriana</i>).....	2-2½ ft. spread	6.50
Deep green with greyish cast. Stands shade.	2½-3 ft. spread	9.00
Irregular, flat spreading growth.	3-3½ ft. spread	12.00
Sylvester Juniper	2-2½ ft.	6.00
Dark green. Upright growing. Endures shade.	2½-3 ft.	7.00
	3-3½ ft.	8.00
SPRUCE (Picea)		
Black Hill Spruce (30 to 40 ft.)	2½-3 ft.	6.00
(<i>Picea Albertiana</i>) Bluish-green. Compact grower.	3-3½ ft.	8.00
Norway Spruce	18-24 in.	2.50
(<i>Picea Excelsa</i>).....	2-2½ ft.	3.25
Rapid growing, 80-100 ft. Dark green foliage.	2½-3 ft.	4.00
	3-4 ft.	6.00
Colorado Blue Spruce	18-24 in.	9.00
(<i>Picea Pungens Glauca</i>).....	2-2½ ft.	12.00
	2½-3 ft.	18.00
	3-3½ ft.	24.00
PINE (Pinus)		
Scotch Pine	18-24 in.	3.00
(<i>Pinus Sylvestris</i>).....	2-3 ft.	4.00
Rapid growing, 25 to 30 ft. Pale green foliage.	3-4 ft.	6.00
Mugho Pine (2½-3 ft.)	12-18 in.	6.00
(<i>Pinus Montana Mughus</i>) Dark green, dwarf compact.	18-24 in.	7.50
RETINOSPORA ANDELY	18-24 in.	3.75
Bluish-green. Dense compact, round headed, low growing.	2-2½ ft.	4.50
RETINOSPORA PLUMOSA	2-3 ft.	5.00
Light green, dense, cone shaped.	3-4 ft.	7.50
RETINOSPORA PLUMOSA AUREA	2-3 ft.	5.00
Golden yellow.		
JAPANESE YEW (Taxus Cuspidata)	15-18 in.	6.00
Dark green, bushy type. Endures shade.	18-24 in.	7.50

✓ Hyslop	Red Over Yellow.....	M. to L.	G.....	C.....	6 Weeks
✓ Whitney	Red Over Yellow.....	L.....	G. to V. G.	C. D...	2 Weeks

TRIPLE THE LIFE OF YOUR GRIMES TREES

by planting our double-worked trees. The Grimes part is budded about 18 inches from the ground on a hardy variety not susceptible to collar-rot. These Double-worked Grimes have roots and stock that are two seasons growth.

RICHARED (Trade Marked) DELICIOUS

This strain of common Delicious colors up a solid red two or three weeks earlier but is identical in flavor, size, shape and texture. The Richared originated near Wenatchee, Washington, in the orchard planted in 1910 of G. T. Richardson. Trees of the third generation grown from this original tree have borne fruit true-to-strain.

Wherever the common Delicious thrives, this Richared will prove more profitable because it can be picked and marketed two weeks earlier with solid red color. Windfalls are avoided and the keeping quality is better.

Purchasers are required to sign an agreement not to sell or give away or dispose of any buds or scions from these trees.

*Hardest varieties.

CHERRY

Early Richmond (May Cherry),
Montmorency, English Morello

These "Sour" Cherries ripen about a week apart. The Sweets are more particular as to soil and climate and are sometimes self sterile, so a Black Tartarian should be planted with any other sweet variety.

Branched

Diameter	Height	Each Rate	5 Rate	25 Rate

Popular Everblooming varieties. The very best grade 2 yr. field grown.

American Globe Arbor Vitae

*Thuya occident-
alis globosa*

This popular dark green Arborvitae is splendid for tubing and for planting on each side of the walk at the entrance. It maintains its globe shape without pruning, and stands severe temperatures.

RICHARED
The Delicious Supreme

The Richared Delicious has all the good qualities of the original or common Delicious, but colors up a solid red two weeks or more before the common Delicious begins to color up. The Richared is much more profitable because of early picking, more extra fancy grade, firmer apples, no loss from windfalls, and long storage.

Purchasers are required to sign an agreement not to sell or give away or dispose of any buds, or scions from these trees.

HYDRANGEA ARBORESCENS
 Splendid for Shady Places. Blooms Aug.-Oct.

BECHTEL'S CRAB
 Double Pink Flowers
